

Ahmad Abo Al Shaar

React & .Net Developer

✉ eng.ahmad.alshaar@gmail.com ☎ 0980494076 📍 Damascus 🌐 <https://github.com/skaepra>

SUMMARY

Frontend Developer specializing in **React** and **React Native**, with experience building responsive web and cross-platform mobile applications using **JavaScript** and **TypeScript**. Skilled in developing reusable UI components, integrating RESTful APIs with **Axios**, managing application state with **Zustand**, and validating forms using **Zod**. Familiar with **ASP.NET Core Web APIs** and **SQL Server**, enabling effective collaboration with backend systems. Passionate about writing clean, maintainable code, learning modern technologies, and building high-quality user experiences.

EDUCATION

Higher Institute of Computer Technologies

2024 - 2026

Damascus University

SKILLS

Programming Languages

JavaScript , TypeScript, C#

Frontend Development

React, React Native(Expo)

,HTML, CSS, Bootstrap, Tailwind CSS

State Management

Zustand ,Redux

Form Validation

Zod

API Integration

Axios

REST APIs

Architecture

Feature-based Architecture

Development

Development

Responsive Design

Responsive UI

Backend

ASP.NET Core MVC

Database

SQL Server

Tools

Git , GitHub

Soft Skills

Fast Learner, Teamwork, Time Management,

Communication, Research Skills

BEST PROJECTS

Delivery Mobile Application

- Developed a cross-platform delivery mobile application using **React Native**, **Expo**, and **TypeScript**.
- Integrated the mobile application with **ASP.NET Core 8 Web APIs** using **Axios** and RESTful APIs.
- Tested and documented API endpoints using **Swagger** during development.
- Implemented secure form validation using **Zod**.
- Managed global application state, including the shopping cart, using **Zustand**.
- Implemented recipient location and address selection using **MapLibre GL** and **Expo Location**.
- Built responsive and user-friendly interfaces following **Responsive Design**, **Responsive UI**, and **Cross-platform Development** principles.
- Structured the project using **Feature-based Architecture** to improve scalability, maintainability, and code organization.

Technologies: React Native, Expo, TypeScript, NativeWind (Tailwind CSS), Zustand, Zod, Axios, REST APIs, ASP.NET Core 8 Web API, Swagger, MapLibre GL, Expo Location

Technologies: React Native, TypeScript, Expo, ASP.NET 8, SQL Server

E-Commerce Web Application

- Developed a responsive e-commerce web application using **React**, **TypeScript**, and **Tailwind CSS**.
- Implemented user authentication with form validation using **Zod**.
- Managed global application state (shopping cart and wishlist) using **Redux**.
- Integrated REST APIs using **Axios**, with **JSON Server** for mock backend and order management.
- Implemented an interactive checkout experience with **MapLibre GL** for user location selection.
- Added smooth and interactive user interface animations using **Framer Motion**.
- Built the project following **Feature-based Architecture**, with reusable components and maintainable code structure.
- Designed a fully **Responsive UI** with **Responsive Design** principles for desktop, tablet, and mobile devices.

Technologies: React, TypeScript, Tailwind CSS, Redux, Zod, Axios, Framer Motion, MapLibre GL, JSON Server.
